

LED lights

designed and built by GEKA

AGRI

The widely used GEKA-light, now with state-of-the-art LED technology. More economical, more durable and more reliable.

12V, 25W indicator-, breaking- and rear positioning light with indicator control function.

BBS16LEDA

12V, 25,6W indicator-, breaking- and rear positioning light including licence plate illumination and indicator control function.

BBSK16LEDA

OCTAGON

The new LED-light in a solid aluminium casing. Enhanced brightness in durable GEKA-quality with a modern look.

12V, 24W indicator-, breaking- and rear positioning light with indicator control function.

BBS17LEDA

12V, 26W indicator-, breaking- and rear positioning light including licence plate illumination and indicator control function.

BBSK17LEDA

12V, 23W indicator- and front positioning light with indicator control function.

BP17LEDA

POSITIONING LIGHTS

Top of the line LED-luminosity in a robust casing featuring different operation modes from 12V to 24V.

Front positioning light

Multi-Voltage 9-30V

0,3W at 12V and 0,6W at 24V

PL16

Positioning light 104x36mm, flat

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V

PL17

Positioning light 104x36mm, curved

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V

PL17/1

Positioning light 104x36mm, flat

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V

SML17

Positioning light 104x36mm, curved

Multi-Voltage 9-30V

0,45W at 12V and 1W at 24V

SML17/1

Angle support

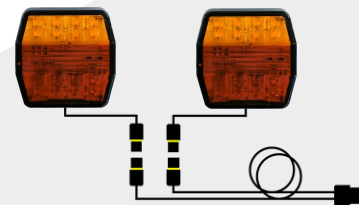

Available for all positioning lights.

SML17WH/1

LED backlight set including "AGRI" (BBS16LEDA) with each 0,5m cable, connector cable 7m and 2x 4-pol connectors, GEKA connector **IP67**, and **indicator control function**.

EL16LED

LED backlight set including "OCTAGON" (BBS17LEDA) with each 0,5m cable, connector cable 7m and 2x 4-pol connectors, GEKA connector **IP67**, and **indicator control function**.

EL17LED
